

Cal Club Annual Number Policy

Licensed Cal Club drivers and Associate Member drivers can have an annual number. **The annual number will stay with that driver in his/her class for as long as the driver requests renewal annually and enters at least two Cal Club races per season.** Assigned annual numbers can only be released by the owner of the number unless it is considered abandoned.

An Annual number is considered abandoned if a driver does not submit an annual request form or has not met the two race requirements for two years

If race groups are changed by the Competition Committee and two or more drivers in the new race group have the same number, the number will be assigned by earliest receipt of request.

Priority of non annual number assignments is determined by earliest receipt of entry by the registrar.
