Auto Club Speedway (formerly California Speedway) is known for its low banked, D shaped oval superspeedway hosting NASCAR events since 1997 but it also contains a very challenging road course. For Cal Club events the "Sports Car Course" is used, 2.8 miles in length incorporating the oval's main straight and turns 1 and 2 before dropping into the 21 turn infield. This is a very fast road course and a difficult one with the dominating concrete walls.

Cal Club the builder of Buttonwillow Raceway Park located in Buttonwillow, California, a few miles west of Bakersfield, is a region of the Sports Car Club of America. Cal Club is in its 63<sup>nd</sup> year, has nearly 2,000 members offering

competition programs in road racing, solo/autocross, time trials, and road rally. The Club has a rich history of producing some of the world's most noted drivers and the best race volunteer workers the sport has ever seen.
