Important Information for all Drivers Regarding Results!!!!

Drivers please make sure that all information on the results sheets is correct! Especially your name, it must appear as it does on your SCCA membership card or your results will not load into the SCCA Data base in order for you to get credit for that event. For example if you enter as "Bill" but your name on the SCCA [membership](#) card is William the system will kick your results out! Membership number must be exact also, so if you have an underscore and a _1 or _2 that must be entered as well. Please help us out and check all the qualifying results so that timing and scoring can correct before the racing starts! Thank you in advance for your cooperation
