Rev 10/30/25

Entry fees are heavily influenced by what the track charges for a weekend rental, as well as mandatory SCCA fees for Sanctions, insurance, Tow Funds, and Worker Funds, combined with the general overhead to transport and maintain equipment, and feed volunteer workers.
- **COMPLIANCE FEES:** SRF3 and FE2 will be charged an additional compliance fee of \$30.00 at each Regional and/or Majors and/or Super Tour race weekend.

It's similar to the old Tow Fund and will be collected at all Majors events from Runoffs-eligible classes only. The assessment is \$20 per entry. 2025 Supplemental Regulations — Nov 2025 @ The Circuit

Rev 10/30/25

PIT AND PADDOCK AREA:

- **PARKING/PADDOCKING** is a first-come, first-serve basis here at The Circuit. The only “off-limits” areas for parking/paddocking is in the rows next to the hot pit wall that host Grid and Tech. One thing to remember is to keep the paved roadways as open as possible. Tow trucks often have to get disabled cars down the paved roads, so keeping your paddock spot limited to about a car width on the pavement and the rest in the grass/off-pavement areas is preferred.
- Hot Pits are **RESTRICTED AREAS**. **HOT PASSES** (and SCCA membership) **ARE REQUIRED** and will be checked by grid personnel.
- **Grid and Tech/Impound** are controlled areas; please follow the directions of Race Officials.
- **Grid** is closed to through traffic at all times.
- **Closed-toed shoes** are required on the grid and over the wall on pit lane.
- Unless signaling a car or tending to a car in the **Hot Pits**, all persons must remain behind the pit wall.
- **Smoking is prohibited** in the Hot Pits, Tech/Impound, Grid and all buildings.
- Spectators/participants with “**PADDOCK ONLY**” passes are not allowed over the pit wall at any time. No one may stand or sit on the pit or track walls anytime cars are running, either on the track or within the Hot Pits.

PREFERRED NUMBERS:

- Every effort will be made to honor Cal Club/Conference Preferred Numbers until 14 days prior to the event. However, due to the make-up of the run groups, this may not be possible in all situations. If two drivers holding the same Preferred Number request that number for the same run group, the number will be assigned to the driver with the earliest request.

TECHNICAL AND SAFETY INSPECTION:

- **TECH:** Event Tech Stickers will be issued at Registration to pre-registered drivers who bring their logbook with an Annual Tech stamp and have their appropriate logbook page filled out for the event. Drivers without a current Annual Tech stamp must complete the pre-race technical inspection at the appointed location (Tech Trailer) to obtain their Tech Sticker. 2025 Helmet Stickers are required for this event. Driver's Equipment (including helmets) can be checked in Registration or at Tech.
- **HOURS:** See each event Schedule. **Tech is always closed at lunch.
- **SCALES:** Scales are available when Tech is open. During qualifying and racing, a competitor may request to be weighed when the scales are not being used by the officials.

Rev 10/30/25

- **MANDATORY IMPOUND:** All Cal Club events covered by these Supplemental Regulations will have a **mandatory impound post each Qualifying and Race session**. All cars appearing on track must report directly to the impound area after each qualifying, and race session. Even if your car suffers mechanical issues and you stop early, everyone must go through Impound (Tech) after each Qualifying and/or Race session. Impound will be located in the area of Tech. The Chief Steward will release each group as soon as possible. Those who will be double dipping must notify the Chief of Tech prior to impound to secure an early release to the next event.

SOUND:

- Sound Control Officials monitor the sound level and log by car number and class during events. Weather readings, temperature, humidity, wind speed and direction are recorded during events where sound readings are being taken. **SOUND READINGS** will be posted on the side of the Tech Trailer when available.

PACE CAR:

- When a PACE CAR is used, its lights will be turned off to signify the final lap run under yellow. NOTE that the double yellow flags at each flagging station will remain up until the STARTER displays the GREEN FLAG. When NO PACE CAR is used, the double yellow flags will remain up until the STARTER displays the GREEN FLAG. With NO PACE CAR, it is the pole sitter's/Lead Car's responsibility to PACE the field at a steady 40 to 50 mph.
- In addition to GCR 6.6.2., the field shall follow the PACE/SAFETY car as long as its emergency lights are flashing, even if it varies from the normal race course. In the event a full course yellow results in dispatch of the safety car, the safety car will enter the racing surface at pit out.

DOUBLE DIPPING:

- Double Dipping is defined as running one car and one driver in more than one class and run group. For example, SM can be legal in both SM and STL. One driver in one car running in both groups during one sanctioned event is "double dipping". SM double dipping in more than one group must meet the rules for every group entered (Example STL must meet all the SM rules including weight, tires and the like. Should a SM running STL run anything not legal in SM but legal in STL (tires for example) then the car must meet all of the STL rules, including weight) The goal of double dipping is to provide members an opportunity for more track time at a reduced rate, and does not insure competitiveness.

PERSONAL TIMING SYSTEMS:

- Trackside triggers/beacons for data logging and lap timing systems shall be located in the designated area provided. This area will be 30 feet each side of the Start/Finish line at all tracks Cal Club holds events on.
- No devices are permitted elsewhere as they disrupt others attempting to get valid times.

TRANSPONDERS:

- All cars are required to use full operational MyLaps (formerly AMB) transponders.
- **IT IS THE DRIVER'S RESPONSIBILITY TO MAKE SURE HIS/HER TRANSPONDER IS WORKING.**
- Often on small open wheel cars the numbers are simply not visible from the Timing and Scoring tower. It is the racer's responsibility to ensure the numbers on his/her race car are sufficiently highlighted and/or of sufficient size to be read visibly by Timing and Scoring personnel.

RACE GRID:

- Gridding will be based on the best lap of the qualifying session for that day's race.

RACE LENGTH:

- Race length will be the number of laps or specified times as listed on each Event Schedule. Times on the Schedule are for Off-the-Grid. Race-Clock starts with Green Flag.
- **TIMED SESSIONS:** The clock will continue to run during all flag conditions with the exception of the red flag.

CONTACT IMPOUND:

- Reminder: Per GCR Section 6.11.1.E.: If a driver is involved in any body/wheel contact, the driver and car shall stop at the designated incident investigation site (Black Flag/Impound area in Tech) for review of the incident by the stewards before going to their paddock area. The designated incident investigation site shall be identified in the Supplemental Regulations and/or a written driver's meeting. "body/wheel contact" includes but is not limited to: contact resulting in 2 or 4 wheels off course, spins, loss of position, or repairs to suspension or bodywork.

2025 Supplemental Regulations — Nov 2025 @ The Circuit

Rev 10/30/25

CAL CLUB RACE CLASSES:

- The GCR defines all recognized SCCA car classes within the GCR. Cal Club also has identified "Regional only Classes" and documented their preparation rules. These can be available via the Cal Club office and/or on the Cal Club Web site: www.calclub.com.
- SCCA National is implementing a plan to reduce the number of National /Runoffs eligible Classes. A "work in progress", this is what we know at this time:
 - Combination of **P1** and **P2** - the new class is called "**P**" and the CRB has backed up a bit and wants **P2** to stay as a class (for immediate future). They will run together at Runoffs as the plan sits right now, and for 2025 (until told to change), we will run **P** (formerly **P1**) and **P2** both.
 - **GTL** is not a Majors class from 2025 forward, it will be a Regional class only. **GTL** cars are eligible to transition into **FP** as stated in Fastrack.
 - **F600** can run in all Majors and HST in the West Coast events only. **F600** will not be invited to Runoffs, but the class is not eliminated from Majors events that can accept the Small Formula Run Group. **F600** can run as a Regional Only Class at all Cal Club Regional events.
 - **AS** will run with **T2**. The CRB is working on class consolidations of these two and we expect plenty of Data to be pulled over the first few events. They need to run together. They do not know what the class will be called yet.
 - Starting in January and through the rest of the year until they make changes again..... **GT3** will be a REGIONAL ONLY CLASS. The Comp Committee is trying to create rules to "slow" down **GT3** so they can combine them with **STU**. They have created some "things" **GT3** must do (but haven't said where those "rules are posted", and when the **GT3** guy implements those things, it will become a **GT3U**, and that will be a Runoffs eligible class... so from January until National changes, we will have **GT3** (as a Regional only class) as well as **GT3U** (which is a Runoffs eligible class).

PATH TO THE RUNOFFS:

- The Majors/ Super Tour path to the Runoffs is well defined in the 2025 GCR. For 2025, there is no longer a "Divisional Path" to the Runoffs. Only the U.S. Majors Tour and Super Tour event finishes will be used to determine qualifiers for the 2025 SCCA Runoffs.
- Points will be the Majors Points system. Points are paid out as follows:
25, 21, 18, 17, 16, 15, 14, 13, 12, 11, 10, 9, 8, 7, 6, 5, 4, 3, 2, and 1

RESULTS:

- Results can be found at the Question Box at each event or at a specified area for each track, which will be announced in the driver's letter for the specific event. Results will be posted the Cal Club web site. Additionally, any member may request **results be mailed if they make such request to Timing and Scoring after each event.**

- **NO STAKES** or any other object may be driven into pavement at any track. Racing cars and other heavy objects must be supported with jack stands and such stands must have a wood, metal or other pad between it and the asphalt to distribute the weight and avoid damage to the surface. Drivers/entrants will be charged for asphalt repairs caused by improper or inadequate jack support.
- **SURFACE DAMAGE** caused by the spilling of fuel, solvent, oil or any other material may result in the track charging the driver and/or entrant for damage to the surface or required clean up. The driver's pit stall is the driver's/entrant's responsibility, not the crewmembers.

When at The Circuit, one must use the "oil dump" at the Classic Track (behind the fuel pumps).
- **SPEED LIMIT:** There is a speed limit for all vehicles (including race cars, golf carts and two or three wheeled vehicles of any type) at each track. Speed limits are set by each track and strictly enforced by track and Club officials. All Club members and visitors are expected to identify and obey such limits. Club and track sanctions may run from warnings and fines to the violator's removal from the property depending on the severity of the offense.

Parking is permitted on the west lane of the roadway (NO SHOULDER PARKING – PARK ONLY WITHIN THE LANE AND ON THE ROADWAY SURFACE). The middle lane must remain open as must the exit lane.
- **PARKING IN PADDOCK:**
At BRP during dry weather: Park your support vehicles on the grass (dirt?), perpendicular to the asphalt to provide increased access for other competitors.

At BRP during wet weather or muddy conditions: **You may park support vehicles on the Pavement** if necessary. Racecars can be parked on the pavement at all tracks at all times.
